

Spotify's Age Demographics in (%):

Spotify's Age Demographics in (%)

Detailed explanation:

The donut chart illustrates the distribution of Spotify users across different **age groups**. The **largest proportion, 28.7%**, falls within the **25-34** age range, making this the most dominant group on the platform. The **second largest group**, aged **18-24**, accounts for **25.7%**, highlighting Spotify's strong appeal among young adults. As **age increases**, the percentage of **users declines**, with **15.8%** in the **35-44** group, followed by **10.9%** in the **45-54** group. The **55+** category represents **18.8%** of users. The color-coded diagram shows these differences.

Key statement:

The data suggests that Spotify is particularly popular among young adults and middle-aged users, likely due to its technology-driven interface and diverse music library. The decline in older age groups could indicate different listening preferences, such as traditional radio or other streaming services.
